

2016 SUN-n-FUN Forum - TFRs - Avoiding a Fighter Escort

Pilots know not to fly into Temporary Flight Restricted areas (TFR's). This seminar is presented by an insider at North American Aerospace Defense HQ (NORAD), who will enlighten the audience on how to avoid TFR's, what a fighter intercept does, and how to react if one is encountered. With a highly charged election season upon us, and with numerous rocket launches planned at Cape Canaveral, TFR's will be an increasingly important part of pre-flight planning...Learn how to deal with them more effectively at our seminar! This is a live presentation only.

Directions: The FAA Safety Center (new name: Orlando Field Office) is centrally located on the Sun-n-Fun grounds at the corner of Laird Drive and Sun-n-Fun Road. Forums entrance is on the west side of the building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
